DETAILED ACTION

Allowable Subject Matter

Claims 24-27 are allowed.

The following is an examiner's statement of reasons for allowance:

There is no teaching or suggestion in the art of record disclosing an electrooptical device comprising all of the structural limitations of claim 24 in combination, wherein the ultraviolet absorbing layer comprises a semiconductor material having photocatalyst activity, wherein the semiconductor is selected from the group consisting of titanium oxide, strontium titanate, tin oxide, niobium oxide, indium oxide, and gallium oxide. Therefore, independent claim 24 is deemed allowable along with its dependent claims 25-27.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
